

DEGROWTH IS A MOVEMENT
Scientists, activists, artists,
hippies, dreamers, punks,
weirdos, caregivers, feminists
and environmentalists, the well-off
and the oppressed are imagining
and creating worlds beyond growth

DEGROWTH IS ANTI-
CAPITALIST.
Capitalism feeds on life
to expand. Without growth
it collapses. Degrowthers
struggle for a society where we
all have access to what we
need to thrive

DEGROWTH IS JUSTICE
Growth exploits all sorts
of communities and nature
for profit. Degrowth restores
equity and respect between
people and environments

DEGROWTH IS ABOUT
RELATIONSHIPS
Degrowth builds and strengthens
bonds between people, communities
and their environment. When we
share more we consume less

WHAT IS DEGROWTH?

DEGROWTH
IS A
CRITICISM
OF GROWTH.

The economy
turns nature
into stuff
and waste.
Growth
accelerates
this, but
doesn't make
us happier.

DEGROWTH IS
DOWNSCALING
Industry consumes
the earth's resources
faster than they
regenerate. Decreasing
consumption and production
allows us to live well
together today
and in the
future
