

The "Eco-Fucker Hit List" is a series of doxxes than ran in *Live Wild or Die!* in the 90's. It listed the names and addresses of the biggest polluters, technocrats, logging execs, and other eco-fuckers of the era. The list attracted the eyes of many, including an enterprising individual using the name "Freedom Club Anarchist Terror Group" (Ted Kaczynski).

Live Wild or Die! was a militant green-anarchist periodical running from 1988 to 2001. It had a rowdy, satirical tone mixed with communiques, target research, direct action tips, and thoughtful analysis of movement trends. It was written and funded by members of Earth First! but considered itself more as a radical splinter movement with ideological ties closer to the ELF and ALF. Where Earth First! advocated for above-ground organizing and non-violent direct action, the contributors to *Live Wild or Die!* argued for clandestine organization and militant direct actions.

The editor of this zine is a huge fan of the *Live Wild or Die!* publications, and so was Ted Kaczynski, who had written correspondence with the editors and had a copy of it in his cabin when he was arrested. It is suspected that the Eco-Fucker Hit List is specifically where he found the address for a deadly mail bomb he sent to Gilbert Murray, the president of a timber lobbyist group, because Kaczynski misspelled the name on the package in the same way it was misspelled on the hit list.

Understandably, this produced a lot of flak from the feds for *Live Wild or Die!* as well as for Earth First! itself due to the connection between the two in the eyes of the FBI. The author of this zine had the chance to talk to some old school Earth Firsters about this and they were still a bit miffed about the whole situation. As a more-or-less above ground organization, Earth First! has received a lot of heat for actions taken by clandestine radical environmentalist groups.

We wanted to showcase the Eco-Fucker Hit List as a part of our proud, yet complicated radical history. We would also like to take this opportunity to launch a new zine series, Eco-Fucker 500, a new series of eco-fucker doxxes meant to continue our tradition of keeping the eco-fuckers of the world on their toes.

A Response to the Hit List By the Earth First! Journal Earth First! (Beltane/Spring 2012)

After failing in a renewed effort to revive overt support for eco-assassin Ted Kaczynski (known to some as the Unabomber) at this year's at Earth First! Organizers' Conference (OC), a group of former Earth Firsters have decided to create a faction wholly unaffiliated with the liberal cowards and charlatans of the Earth First! hot tub social club.

Why the splinter?

The movement needs to grow and evolve to remain effective. But we've been seeing the opposite process take place in Earth First!. Rather than raising the stakes in the face of worsening global ecological devastation, there is a rehashing of the stale old debate about adopting nonviolence as a movement principle. And within that dialogue, a proposal has even been made to remove any prisoners who used "violence" from listing in the EFJ Journal—including cases of self-defense, bank robbery or political assassination.

Thankfully the courageous *Journal* collective is standing their ground in refusing to use "violence" as a determining factor in deciding who they list. In fact, they even attempted to take a step forward by re-listing Ted (as had been done in the movement heyday of the late '90s), even acknowledging that EFi was an influence and inspiration in some of Ted's most righteous choices of targets for his bold actions against the architects and elite beneficiaries of the techno-industrial empire.

While the listing of Ted was squashed for the time being during the 2012 OC in Utah, the Friends of Uncle T are not surrendering. In fact, we are stepping it up.

It's not that we want to further fracture the EFi movement with this faction; on the contrary, we are anticipating that our splinter group can increase the prominence and relevance of ecological direct action by pushing the envelope in these crucial times.

On (not) killing CEOs and lobbyists

Let us say clearly, this is not a call to undertake assassinations of the elite scum who are pillaging the planet and enslaving the populace—but not because we think that is a bad idea.

And it's also not because we think killing CEOs and lobbyists is negative PR either. In fact, most everyone hates these creeps, and many would applaud their demise. Some would even be so enthusiastic as to make a bid on the assassin's old underwear if given the chance in a government auction, as we found out last year, when the State sold off Ted's personal belongings to further enrich the family of Unabomber victim Thomas J. Mosser, executive of corporate marketing giants Bulson Marsteller. [See EFi! Vol. 31, #2]

We are not calling for the assassinations of CEOs and lobbyists primarily because those assholes are disposable and replaced with relative ease. Whereas eco-revolutionaries like us are still far and few between, and someone getting popped on that sort of charge it could pull them out of the game for a long time.

So instead, until the police state and prison industrial complex is weakened, thus leveling the battlefield a bit more, we propose a campaign of "prank assassinations."

This involves various acts intended to let people know they are vulnerable, and well hated—even that we wish they were dead.

These could range from the classics, like flaming-shit-on-the-doorstep or a strategically placed dollar bill covered in turd on the facedown side, to the new fangled hacker-style shit all up in their internet profiles, and a million things in between... (of course, the more feces the more better... just remember security culture, and use non-identifiable scat.)

And for you non-research-nerd types

We thought we'd get you started with a list of EAT (IT)'s Top 10 List. Let's call it "The Eco-Fuckers Prank-Hit List," at least until we come up with something more creative...

If you think you see a common denominator here, then there's a chance you may want to add to this list for future issues. Needless to say, we couldn't begin to list everyone who deserves to be a target. Most of us are already aware of the obvious evils of Dow Chemical or Shell Oil, but this column would be an opportunity to share the perhaps smaller, more local, Lesser-known villains with some of the other troublemakers who might be reading this rag. Sometimes it helps to concentrate our efforts, que no?

So pick out your pet target and send their location and a short description of their evils to:

Visualize parking lots full of appliances--toasters, microwaves, blenders, boom boxes, power tools... a rock concert in every town south of Seattle down the Grid towards L.A., all the welders turning up their shops full blast, all the millions of air conditioners, all craving the juice, and if everyone were to plug in all their electricity-sucking devices, the system, the "Grid," would blow out due to the demand upon it. We would be free! No more streetlights! No more shopping! No more. . . Just blackness, just darkness, and quiet.

SHUT DOWN THE CORPORATE WORLD

January 1-7, 2000 CE
Block all corporate transportation to start the next millennium off--free from corporate domination. Consider organizing affinity groups to plan a global shut down of freight trains, container ships, truck routes and cargo jets. Blockade the major routes used to transport raw materials and manufactured goods in protest to the new trade agreements and the transfer of power to corporations. One suggestion is to block trains one week, airports another week or other such strategies. Internet blockades and other efforts to interfere with the corporations' ability to operate. They will already be facing problems of computers being unable to change their dates to the year 2000 and the general crazy way people are around such dates. Maybe folks can start brainstorming around the idea of blocking corporate transportation as a way to resist globalization. We could urge unions and all groups to join in the dialogue. Maybe we can encourage wildcat strikes etc.

IF THE UNABOMBER PREVAILS AND WE RETURN TO WILD NATURE...

CAN I STILL HAVE MY CARPHONE?

TED KACZYNSKI's plywood cabin was moved by the FBI from Lincoln, Mont., to a warehouse at Mather Air Force Base in Sacramento, Calif., for the Unabomber trial. The 10-by-12-foot shack proved unnecessary in determining Kaczynski's fate. But what about the fate of the cabin? Would the Smithsonian want it? Nope. "we're more interested in cultural things," says a spokeswoman. How about the National Building Museum? Sorry, "it's not something we foresee in our future," says its spokeswoman. Ron Darlington of Helena, Mont., who sold a lot of Unabomber T-shirts, says Montanans would "rather forget about it." In the end, the cabin remains the property of Ted and his brother. David Kaczynski, says Vic Biondi, media coordinator for the trial. "They could decide to chop it up for firewood. It's up to them."

Kaczynski, "El Unabomber"?

AND NOW...

ACTUALIZE INDUSTRIAL COLLAPSE

"For a matter of months preceding the beginning of my trial on November 12, 1997, I had been aware that my attorneys wanted to use a defense that would be based on supposed evidence of mental impairment. However, my attorneys had led me to believe that I would have a considerable measure of control over the defense strategy, hence I was under the

impression that I would be able to limit the presentation of mental evidence to some items that at that time I thought might have some validity.

The first weeks of the trial were devoted to selection of a jury, a process that told me little about the defense that my attorneys planned to use. But in late November I discovered that my attorneys

had prepared a defense that would virtually portray me as insane, and that they were going to force this defense on me in spite of my bitter resistance to it.

For the present I will not review in detail what happened between late November, 1997 and January 22, 1998. Suffice it to say that the judge in my case, Garland E. Burrell, decided that my attorneys had the legal right to force their defense on me over my objections; that it was too late for me to replace my attorneys with a certain distinguished attorney who had offered to represent me and had stated his intention to use a defense not based on any supposed mental illness; and that it was too late for me to demand the right to act as my own attorney.

This put me in such a position that I had only one way left to prevent my attorneys from using false information to represent me to the world as insane: I agreed to plead guilty to the charges in exchange for withdrawal of the prosecution's request for the death penalty. I also had

to give up all right to appeal, which leaves me with a virtual certainty of spending my life in prison. I am not afraid of the death penalty, and I agreed to this bargain only to end the trial and thus prevent my attorneys from representing me as insane. It should be noted that the defense my attorneys had planned could not have led to my release; it was only intended to save me from the death penalty.

By concealing their intentions from me and discouraging me from finding another attorney before it was too late, my attorneys have done me very great harm. They have forced me to sacrifice my right to an appeal that might have led to my release; they have already made public the opinions of supposed experts who portray me as crazy; and they have caused me to lose my opportunity to be represented by a distinguished attorney who would have portrayed me in a very different light.

Perhaps I ought to hate my attorneys for what they have done to me, but I do not. Their motives were in no way malicious. They are essentially conventional people who are blind to some of the implications of this case, and they acted as they did because they subscribe to certain professional principles that they believe left them no alternative. These principles may seem rigid and even rubbics to a non-lawyer, but there is no doubt that my attorneys believe in them sincerely. Moreover, on a personal level my attorneys have treated me with great generosity and have performed many kindnesses for me. (But these can never compensate for the harm they have done me through their handling of my case.)

Recent events constitute a major defeat for me. But the end is not yet. More will be heard from me in the future.

This edition of the Eco-Fucker Hit List is a reproduction of the one seen in *Live Wild or Die!* no. 2, but with one major change. Gilbert Murray, president of the Timber Association of California was killed by a mail bomb sent by Ted Kaczynski in April 1995. Murray isn't actually named in the eco-fucker hit list. Instead, his predecessor, William Dennison, who retired in 1994 was named in the list and was the intended recipient of Kaczynski's bomb. It is believed that Kaczynski used the Eco-Fucker Hit List to target Dennison because he misspelled Dennison's name in the same way that it was misspelled on the hit list. Additionally, a copy of *Live Wild or Die!* with the Eco-Fucker Hit List was found in his cabin at his arrest.

The adjacent page in *Live Wild or Die!* features a letter sent in by Kaczynski while he was incarcerated. They refer to him as a "longtime L.W.O.D. reader" because of his history of written correspondence with the publication. He had previously asked the journal editors to publish his manifesto and gave a series of instructions to contact him by placing an ad in the Los Angeles Times newspaper reading, "Dear Stargazer, the mystic numbers that control your fate are ..." signed by the "Numerologist," and followed by a series of number he included as a code in his letter. He had previously sent in other letters to *Live Wild or Die!* as well as to the *Earth First!* Journal with various op-eds and monkeywrenching tips.

When asked about the intentions behind the Eco-Fucker Hit List and specifically about crossing out Murry's name after his assassination and writing "Who's Next?" the editors of *Live Wild or Die!* said that the page was meant to be "1/3 satire, 1/3 scare tactic, and 1/3 serious."

People who live in greenhouses Shouldn't burn fossil fuels

While hundreds of volunteers breathe poisonous petroleum fumes while scrubbing the oiled rocks and boilers of countless offshore oil rigs, the real criminals, the directors and managers of Exxon, continue to bail out, the government and the environment for continued higher profits.

The earth is being killed by mindless consumers lured by greed for profits. There is little time left, so if you don't take a stand against the earth-eating industrial society who will?

Mobilize

The Earth is not dying, it is being killed, and the people who are killing it have names and addresses.

The people who are killing the planet--major coporation heads--get away with it partly because they are inaccessible to those of us who want life on earth to continue. They protect themselves behind walls, electric fences and security systems; they travel in chauffeured limos, hang out in private country clubs and are never seen in public. WE MUST BRING THEM OUT OF HIDING AND MAKE THEM ACCOUNTABLE FOR THEIR ACTIONS.

In an effort to make these people accessible to the planetary community, here's some NAMES, HOME ADDRESSES AND PHONE NUMBERS.

① indicates home address we cannot guarantee that these addresses are accurate or current.

IF YOU ARE WORKING THE NIGHT SHIFT AND MIGHT HAVE TO MAKE SOME NOISE, A TAPES RECORDING OF A LOW-FREQUENCY JET MAKES A GOOD COVER SOUND WHICH DUNS N.E.T. ARDEN SUSPICION.

TIERED OF BEING VIDEOGRAPHED BY COXS AND OTHER AGENTS AS DEMONSTRATIONS, AT BARRIS, ETC.? A VERY STRONG MAGNET CARRIED IN A MAGNETIC CAR BRINGS THE INFORMATION ON VIDEOCAMERA. MAKE SURE THERE IS NO ONE OPERATING A CAMERA NEARBY.

You're looking at our expansion plan.

YOU KNOW ABOUT THOSE PESTICIDE-KILLING MACHINES THAT ARE USED TO CLEAN UP OIL SPILLS? THEY ARE COMMERCIALLY AVAILABLE FROM SEVERAL COMPANIES. JUST CALL AND SAY YOU HAVE AN OIL SPILL AND THEY WILL SHIP YOU THE CHEMICAL BY AIR EXPRESS. YOU PUT IT DOWN AN UNGUARDED OIL WELL AND IN A FEW HOURS THE MULTIPLE CRACKERS HAVE REGENERATED THE WHOLE UNDERGROUND OIL RESERVE INTO USELESS SLUDGE. SINCE HUNDREDS OF OIL WELLS IN THE SURFACE ARE CONNECTED TO A SINGLE PULL UNDERGROUND, THIS SLUDGE CAN BE INCREDIBLY EFFECTIVE. IN FACT, FROM BARROW, ALASKA TO VENEZUELA, MEXICO, THERE ARE ONLY ABOUT 50 OIL FIELDS IN N. AMERICA AND IT IS POSSIBLE THAT A FEW FAST-MOVING TEAMS OF SUBJECTORS COULD HIT THEM ALL WITHIN A FEW WEEKS - BEFORE THE FIRST ONE WAS DISCOVERED. THE COLLAPSE OF THE U.S. ECONOMY WOULD LIKELY CAUSE THE COLLAPSE OF THE INDUSTRIAL ECONOMY OF THE REST OF THE WORLD.

TO SHUT DOWN A MAJOR CITY'S AIRPORT(S); GET A HAND-MADE TRANSMITTER THAT EMPLOYS THE AIR TRAFFIC REGULATIONS (AVAILABLE FROM PILOT SUPPLY SHOPS FOR ABOUT 7000 OR LOTS OF SMALL AIRPORTS LATE AT NIGHT). GET A COPY OF GLOSSARY OF AIR TRAFFIC CONTROLLING TERMINOLOGY FROM U.S. GOVT. PRINTING OFFICE, WASHINGTON, D.C. (810). GO ON THE AIR AND GIVE ORDERS ANY ORDERS. THE F.A.A. WILL SHUT DOWN THE AIRPORT AS SOON AS THEY REALIZE WHAT'S HAPPENING.

A MILLING MACHINE. TONS OF SUBAP INCL. VARY FINE IRON POWDER. PLUGS CROWN BAGS, ABOUT ONE POUND EACH. DRIVE ALLING PLASSING A BAG CUT LEFT THE ROAD EVERY 10 FEET OR SO. DO THIS JUST BEFORE A RAIN STORM. FINE IRON POWDER IS CHEAP, LEGAL, NON-EXPLOSIVE AND NON-TOXIC. ADD WATER AND IT RUSTS. DID YOU KNOW THAT RUSTING (OXIDATION) OF IRON PRODUCES 2700°F OF HEAT NORMALLY THIS HEAT IS BELIEVED TO OVER TIME BUT THE MORE SURFACE AREA TO VOLUME, THE FASTER IT RUSTS AND THE MORE HEAT PRODUCED PER UNIT OF TIME. VERY FINE IRON POWDER PLUS WATER WILL FLASH HEAT TO 2700°F INSTANTLY. ON AN ASPHALT ROAD (WHEELS AT 110° F) EVANT 1 POUND BAG WILL LEAVE A CRATER (FOOT-DEEP). FEW TONS STATIONS ALONG A ROAD WILL CLOSE THAT ROAD. A REALLY AMBITIOUS GROUP WITH A FEW PICKUPS COULD TURN AN ENTIRE SHORELAND-ROADS INTO A ROADLESS AREA. OR DO IT TO MONDAY MORNING TRAFFIC ON CORNELL RAMP, AROUND WASHINGTON D.C. ALSO USE YOUR AND SHUT DOWN THE U.S. GOVT. ALSO ACTUALLY.

SABOTAGE?

UBC computer hit after eco-threats

Blackmailers' warning: Go green or else

By Stephen Ross
San Francisco Examiner

UBC are pushing an unproven scheme of "sabotage" at the University of California, Berkeley, threatening to shut down the university's computer system.

The Province has obtained a copy of a letterhead memorandum (LHM) dated March 18, 1984, from the University of California, Berkeley, to the University of California, Berkeley, dated March 18, 1984, which states that the University of California, Berkeley, is planning to shut down the university's computer system.

The LHM states that the University of California, Berkeley, is planning to shut down the university's computer system because of the threat of sabotage.

YOU CAN SOMETIMES ELECTRONICALLY MONITOR A JUDGE IN A COURTROOM BY HAVING AN ULTRASOUND SOUND PROJECTOR (\$500 FROM INFORMATION UNLIMITED IN AMHERST, N.H.) CONCEALED IN A BRIEFCASE WITH A SWITCH MOUNTED INTO THE HANDLE. AIM THE DISGUISED SPEAKER AT THE JUDGE AND SWITCH IT ON WHEN THE OPPOSING LAWYER IS TALKING; THE JUDGE WILL BECOME NERVOUS AND INADVERTENTLY TALK IT OFF WHENEVER THE LAWYER FOR YOUR SIDE IS TALKING; THE JUDGE WILL BECOME MORE RELAXED. IN A LONG TRIAL THE JUDGE WILL QUICKLY BECOME TRAINED TO DISLIKE THE OPPOSING LAWYER, AND WILL MORE LIKELY RULE AGAINST THEM. INCREASED SECURITY AND METAL DETECTORS IN SOME COURTHOUSES WILL MAKE THIS TACTIC UNSURE, BUT IT MAY HAVE APPLICATIONS IN LESS GUARDED SETTINGS, SUCH AS PUBLIC HEARINGS, PERMIT APPLICATION HEARINGS, ETC.
